Width: 100CM

Height: 100CM

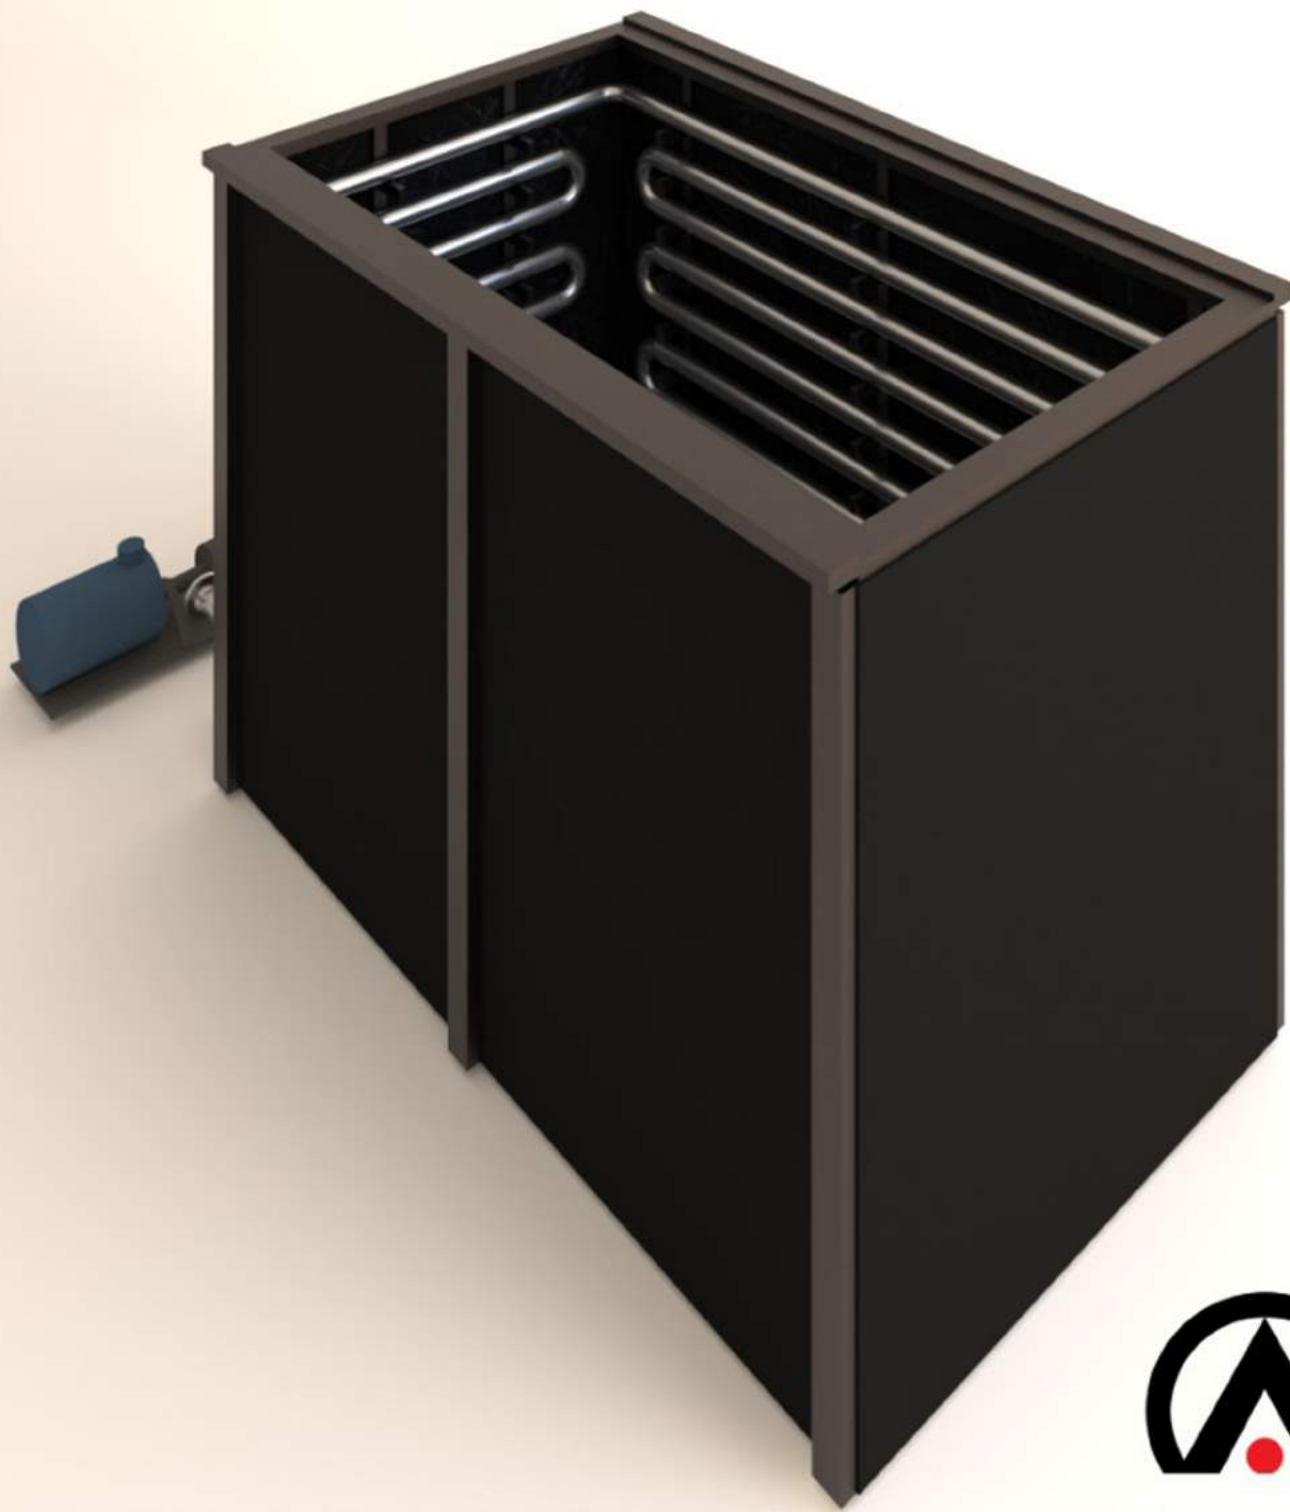

Each Jumbo Bag Contains 1 Metric ton Bitumen

A photograph showing the interior of a shipping container. The container is filled with stacks of large, white, woven polypropylene jumbo bags. Each stack is secured with a metal wire cage and sits on a wooden pallet. The bags are arranged in two rows, with the top row being more complete than the bottom row. The lighting is bright, highlighting the texture of the bags and the structure of the wire cages.

20 Jumbo Bags
can be laden in
a 20" Container
